OCT 25 2010

Ms. Jan Collins
Newfound Lake Pathway Committee
162 S. Mayhew Turnpike
Hebron, NH 03241

Dear Ms. Collins:

Congratulations! The National Park Service Northeast Region's Rivers Trails and Conservation Assistance Program (RTCA) is proud to be able to provide staff support to the Newfound Lake Pathways in our new 2011 Fiscal Year which began October 1, contingent on our final budget.

Thanks for your excellent application and inviting our participation with your effort. Lelia Mellen, the RTCA project manager for your project will be contacting you shortly to work with you to announce this news to your local media and begin developing a work plan for the year. Lelia Mellen can be reached at 802-457-3368x14 or lelia_mellen@nps.gov.

The RTCA program is eager to be a strong partner with you and help you achieve the goals identified in your application. Our mission is to implement the natural resource conservation and outdoor recreation mission of the National Park Service in communities across America. RTCA staff helps create local, regional and state networks of parks, rivers, trails, greenways and open spaces by collaborating with partner agencies and organizations.

We look forward to our partnership and to future on-the-ground results which improve our region by building trails, caring for rivers and improving community connections to open space and outdoor recreation. If you have any questions or comments, please feel free to contact me at 215-597-6477 or david_a_lange@nps.gov.

Sincerely,

David A. Lange, Program Leader
River, Trails and Conservation Assistance Program
