Hebron, NH 03241

2 November 2009

Dear Jan:

Congratulations!

On behalf of the National Park Service Rivers and Trails Program, I am pleased to tell you that the Newfound Lake Pathway will receive technical assistance from the Rivers and Trails Program for this coming year. We are eager to begin our work with you.

The Newfound Lake Pathway looks like a wonderful project and is sure to be a great asset to the communities around Newfound Lake. The Newfound Lake Pathway Committee seems like a dedicated group working towards its communities' future. It will be a privilege to be part of this project, and I look forward to a great year.

As I said over the phone, one of the first steps we like to do with new projects is to create a workplan between the group and the National Park Service. This lets everyone know what to expect throughout the year. We also find that a good workplan can be a valuable vehicle for tracking progress.

I look forward to your return from California and finding a time for us to get going with you and the Committee. Please feel free to contact me if you have further questions.

Sincere regards,

Lelia R. Mellen
New Hampshire Projects Director
