EASEMENTS AND RIGHT OF WAYS

We have a new Right of Way to add to our list.

Doug and Doris Riddle were the first to commit to using a portion of their land for a pathway off road along the beaver pond for our pathway. Then we built a new walking trail on the Audubon Paradise Point property so people could walk off road on that hill.

We now have a Right of Way commitment from the McLane Family to continue this trail across their property along the road that abuts the new Audubon trail on North Shore Road. This is a very dangerous part of North Shore Road so we are very excited about this possibility.

We have an added Right of Way from the McLane Property along 3A.

Please consider working with us for a right of way on your property if you own along the road or in a place that you feel that a trail would benefit our mission. We will be sending a letter and form to abutters along the roads and we are encouraging everyone to consider this possibility. Be creative and help us design this path. See form at end of letter.
